Professional Summary

Computer Applications graduate skilled in Python, SQL, Power BI, and Data Analysis, with hands-on experience developing AI-driven applications, analytics dashboards, and automation solutions. Experienced in data handling, API integration, reporting workflows, and problem-solving through industry simulations, internships, and full-stack development projects.

Technical Skills

Programming and Data Handling: Python, SQL, Pandas, NumPy, JavaScript

Data Infrastructure and Engineering: MySQL, FastAPI, Flask, REST APIs,

AI/ML: Groq API, FAISS, Prompt Engineering

Tools: Git, GitHub, REST APIs

Concepts: Data Structures, OOP, Problem Solving

Experience

Arlig Technologies – Python & Artificial Intelligence Intern

Jan 2026 – Feb 2026

- Developed 15+ Python-based AI problem-solving exercises and mini-projects, improving debugging efficiency, logical reasoning, and structured analytical thinking for real-world development scenarios.
- Implemented machine learning workflows across 5+ hands-on modules using Python and AI concepts, enhancing model understanding, troubleshooting accuracy, and analytical problem-solving capabilities.
- Applied analytical and problem-solving techniques during internship projects, improving task completion timelines by 30% while maintaining consistency across AI and development assignments

Projects

J.A.R.V.I.S — Smart Desktop Voice Assistant | Python | 2026

- Developed a Developed automation and analytics-driven application using Python, APIs, and real-time data processing. using Python, Fast API, JavaScript, and Eel with 10+ integrated AI capabilities including voice recognition, image generation, web search, and automation.
- Integrated Groq AI, Tavily Search API, and FAISS vector storage to deliver low-latency responses, contextual memory handling, and personalized AI interactions.

Resume AI — AI Resume Builder & Career Management Platform | Python | 2026

- Engineered a full-stack AI Resume Builder platform using React, Flask, MySQL, and Groq Llama 3 featuring ATS score optimization and resume analysis.
- Implemented JWT authentication, AI-powered resume evaluation, PDF generation, analytics dashboards, and workflow management to improve career tracking and user experience.

Certifications

- Oracle Certified (2025) - [Oracle Cloud Infrastructure 2025 certified AI Foundation Associate](#).
- Coursera (2025) - [Microsoft Azure SQL](#), [Gen AI in Data Analytics](#), [Machine Learning for All](#).
- NVIDIA (2025) - [Building LLM Application with Prompt Engineering](#).
